#1
Blow Gun

High Flow and Maximum Power!

The Typhoon® Blow Gun is a pistol grip blow gun that employs a unique tip and trigger design. The Typhoon's tip uses an engineering principle known as the "Coanda Effect" to generate its incredible airflow.

- High volume tip - over 2 lbs of thrust
- Variable trigger for controlled blow off
- Integrated hanging hook
- Tough die cast zinc construction
- OSHA compliant with the standard tip

150USE

One Coupling Does it All!

The Safety Exhaust Coupler™ is designed to accept multiple interchanges and remain connected until the downstream air is completely bled off. This reduces the possibility of injury from a whipping hose, while eliminating the guess work of matching interchanges.

5-in-1 Couplers™ Accept: Industrial, ARO, Automotive (Tru-Flate), Euro (Megaflow™) & Lincoln Interchanges

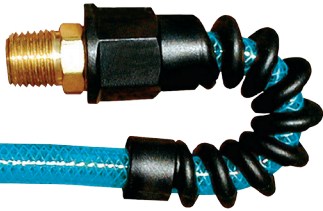

2-in-1 Couplers Accept: Industrial & Automotive (Tru-Flate) Interchanges

- Safely connects and disconnects under zero pressure, no hose whip
- Attractive anodized & plated finish
- Designed to be installed onto a drop or workbench

FLEXEEL[®]

Strain relief fittings maintain the diameter, providing full flow at even a 180° bend.

The Most Flexible, Lightweight, Durable, Reinforced Air Hose!

This hose is extremely lightweight and is extruded with an inner-layer, a layer of reinforced braiding, and an outside jacket, which yields a strong, durable hose with an increased working pressure. Equipped with reusable strain relief fittings that allow for in-field repairs and maintain full flow at even a 180° bend.

- Blue transparent colour
- Constructed of lightweight, tough reinforced polyurethane in the USA
- 200 psi working pressure and Temperature Range: -40 °F to 165 °F
- High quality brass fittings provide strong & durable connection
- Strain relief fittings are completely field repairable
