O1PL200

\$85

Universal Absorbent Sock

3"x8" Absorbent sock made from 100% post industrial material. The super absorbent foam filler is equally effective for absorbing and retaining both oil based and water based chemicals. Does not shed, drip or leak and will not become slippery even when fully saturated. Socks mold around equipment and fit in hard to reach places.

USOCK38-15

\$102.31

Drain Cover

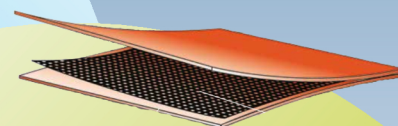

36" x 36" x 3/8" Reinforcing mesh is "sandwiched" between layers of polyurethane to increase durability and resistance to tearing. Unique urethane construction allows the pad to deform and temporarily seal off most drains to any smooth surface. BOTH sides will quickly seal drains as there is no specified "top" or "bottom." Simply lay the seal mat over the drain that requires covering.

DC36

Note: Not intended for long-term outdoor use (more than two [2] hours), as UV exposure and/or heat for extended periods can degrade the product. For applications where extended use may be required, the Ultra-Drain Seal Plus should be considered

\$30

Spill Trays

Handy spill containment trays for storage of containers for chemicals & hydro-carbons. Or, use these for containment of spills from leaky parts, greasy tools, equipment & small engines. Constructed from UV-stabilized PE, all spill trays are chemical resistant and fully recyclable.
